If any RU members < or = 17 years of age or in age categories 1 through 4, continue with Loop_01.

Otherwise, go to Box_08.

Loop_01

For each element in the RU-members-roster, ask CS01-END_LP01.

Loop definition: Loop_01 collects information about a child's resistance to illness, health needs a child may have because of a health condition (LWIM), ratings on the child's behavior and relationships (CIS), health care the child received in the last year (CAHPS), and information about the child's use of clinical preventive services. This loop cycles on each person in the RU-members-roster who meets the following conditions:

- Person is a current or institutionalized RU member and
- Person is not deceased and
- Person is < or = 17 years of age or in age categories 1 through 4.
