The MEPS instrument design changed beginning in Spring of 2018, affecting Panel 23 Round 1, Panel 22 Round 3, and Panel 21 Round 5, and affected the 2017 MEPS data files. The MEPS website releases the consolidated CAPI survey instruments each year for the Rounds 1 through 3 for the first year panel and Rounds 3 through 5 for the second year panel to accompany data releases. For the Full-Year 2017 PUFs, the Panel 22 Round 3 and Panel 21 Round 5 data were transformed to the degree possible to conform to the previous year (2016) design. For this reason, we are releasing 2016 CAPI survey instruments, updated to reflect 2017 dates, and users should note that not all changes to the instrument administered in the Spring of 2018 will be reflected in these documents.

About how long has it been since {you/{PERSON}} had a routine check-up by a doctor or other health professional?

IF NECESSARY, SAY: A routine check-up is a visit with a doctor or other health professional for assessing overall health, usually not prompted by a specific illness or complaint. It usually includes a blood pressure check, and may include taking a blood sample for analysis and questions about health behaviors such as smoking.
