 CTRL-D: DELETE

{{number of providers displayed} out of {total number of providers} providers shown – scroll for more}

Responses: CONTINUE 1
 EMPTY Empty

**Programmer
Instructions:**

Preloaded Grid Type 2 including PV20 - Flexible navigation, allow empty.

If PV20LU is EMPTY for all of the medical providers and interviewer tries to move off of this page display the message: "YOU MUST SELECT A MEDICAL PROVIDER BEFORE CONTINUING. PRESS ENTER TO RETURN TO PV20LU."

If coming from the CA section, after a provider is selected return immediately to the calendar section.

If provider selected (PV20LU='1' for one provider) and event type is OP or MV and linked to a facility-provider (either facility provider was selected from NPI or from the roster or PV40 is coded = '2' (FACILITY PROVIDER)), immediately go to PV70.

Otherwise, after a provider is selected (PV20LU='1' for one provider), immediately return to the Event Roster (EV) section.

Once a provider is added, that provider should be automatically selected. If the interviewer adds a provider, but then decides to 'unselect' it, another provider could be added. CTRL-A should not work if there is already a provider selected on this screen.

Hard Check:

1. If CTRL-E is pressed for a provider that is linked to a NPI ID or the provider was added during a previous round, display the following error message: "THIS PROVIDER CAN'T BE EDITED BECAUSE IT WAS ADDED DURING A PREVIOUS ROUND OR IT IS LINKED TO A NPI ID."
2. If CTRL-D is pressed for a provider that was not added at the current question, display the following error message: "THIS PROVIDER CAN'T BE DELETED. ONLY PROVIDERS ADDED AT THE CURRENT QUESTION CAN BE DELETED."
3. If the provider selected is linked to a person-provider and the event type is HS, ER, OP or IC, display the following error message: "A FACILITY PROVIDER MUST BE SELECTED FOR THIS EVENT TYPE. SELECT/ADD ANOTHER PROVIDER."
4. CTRL-A: Only one provider can be selected per this instance of PV. If FI tries to back up and add another provider, display the following hard check: 'YOU MUST DESELECT THE CURRENT PROVIDER TO SELECT A DIFFERENT PROVIDER TO ASSOCIATE WITH THIS EVENT'. CAPI should go back to PV20LU.

Roster Behavior:

1. Display roster entries in the following order: Display by provider last name or facility name. Entries that are added during the current round will appear at the bottom of the list of entries until the next round.

Grid Behavior:

1. The 'Type of Provider', 'Provider', 'Address', 'City', 'State', 'Zip Code', 'Phone Number', and 'Editable' are protected columns. No changes are allowed.
2. In the 'PV20' column, only one provider can be selected by pressing 1 and enter in the active field for that provider.
3. In the 'PV20' column a provider that is not linked to an NPI ID and was added during

the current round, can be edited by navigating to that providers active field and pressing CTRL-E.

4. In the 'PV20' column a provider that was added at the current question, can be deleted by navigating to that providers active field and pressing CTRL-D.

5. The provider roster entries are displayed in the form pane. To maximize the number of rows that we can display in the form pane without vertical scrolling, reduce the size of the info pane to fit the question text displayed. Thirteen rows display at one time before scrolling is necessary.

When CTRL-A is selected the provider directory should pop-up. The following fields should be displayed in the look-up: Name1, Name 2, Address, City, Phone number, Taxonomy.

There should be an option on the look-up for 'PROVIDER NOT FOUND'. When 'PROVIDER NOT FOUND' is selected, go to BOX_30 to start the collect of provider information using PV50_01-PV50_08 or PV60_01-PV60_07. After the completion of these questions, the provider will be added to the medical provider roster and the interview should route back to PV20LU. At PV20LU, the provider that was just added from PV50_01-PV50_08 or PV60_01-PV60_07 should appear at the bottom of the grid with a '1' prefilled in the PV20 field. Interviewers must press Enter to confirm their selection.

If the provider selected (either at PV20LU or within the NPI look-up window) is linked to a person-provider and the event type is HS, ER, OP or IC, display the following error message: "A FACILITY PROVIDER MUST BE SELECTED FOR THIS EVENT TYPE. SELECT ANOTHER PROVIDER." After the FI has viewed the error message they will return to the provider directory pop-up. The same search string will still be listed in the field.

The following search rules should appear at the bottom of the pop-up: "SEARCH RULES:

- Fewer words often work better than lots of words - but you must type at least 5 letters
- Unusual or unique aspects of provider name or address finds better matches
- Common identifiers (e.g., medical center, office, associates, group, health) can increase the number of 'extra' matches displayed
- If searching by address - include street number and name, but not office, suite, or room number
- If searching by phone number – do not include hyphens
- Review the DETAILS line at the top to verify correct selection

After the FI picks a provider and presses 'SELECT', the provider will appear at the bottom of the grid with a '1' prefilled in the PV20 field for this provider. FI's must press ENTER to confirm their selection.

When CTRL-E is selected for a person-provider that is not linked to a NPI ID and that was added during the current round, go to PV50_01. PV50_01-PV50_08 will be used to update the providers information. After PV50_08, update the provider roster entry and return to PV20LU.

When CTRL-E is selected for a facility-provider that is not linked to a NPI ID and that was added during the current round, go to PV60_01. PV60_01-PV60_09 will be used to update the provider's information. After PV60_09, update the provider roster entry and return to

PV20LU.

When CTRL-D is selected for a provider that was added at the current question, a verification screen will appear to confirm that the interviewer wants to delete this provider.

**Display
Instructions:**

Roster 3 – Add, Edit, Delete Allowed

Roster Definition:

Display the RU medical providers roster for selection of one medical provider. The 'medical providers roster' excludes dental providers which is now on the 'dental providers roster'.

Display the following columns formatted on the form pane:

Column Header #1: PV20

This field is used to select, edit, or delete a provider.

Column Header #2: Type of Provider

Display "P" to represent a person-provider, "F" to represent a facility-provider, or "F (&p)" to represent a facility-provider ever linked to an MV or OP event AND a specific department or a doctor.

Column Header #3: Provider

Display the first and last name of the person-provider or the name of the facility. Set truncation length to 50 characters.

Column Header #4: Address

Display address 1 and address 2 for the provider. Set truncation length to 45 characters.

Column Header #5: City

Display the city for the provider. Set truncation length to 25 characters.

Column Header #6: State

Display the two letter state abbreviation for the provider.

Column Header #7: Zip code

Display the zip code for the provider.

Column Header #8: Phone Number

Display the telephone number for the provider

Column Header #9: Editable

Display 'Yes' if the provider is not linked to an NPI ID and added in the current round.

Display 'No' if the provider is linked to an NPI ID or if the provider was added during a previous round (Provider[[]].OrigRnd).

Roster Filter:

Exclude home health provider entries - 'FRIEND(S) OR NEIGHBOR(S)', 'RELATIVE(S)', and 'VOLUNTEER(S)'.

Display 'last' if PV10 was coded '2' NO and the event type is MV.

Display 'individual' if PV10 was coded '2' NO, RF, or DK OR if the event type is HH Paid Independent.

Otherwise, use a null display.

Display 'or' if PV10 was coded DK or RF. Otherwise, use a null display. Display 'hospital' if the event type is HS. Display 'facility' if the event type is OP, ER, or IC. Display 'home health agency' if the event type is HH Agency. Display 'group practice, HMO, or clinic' if PV10 was coded '1' YES, DK or RF. Otherwise, use a null display.

Display 'SELECT ONE PROVIDER - PRESS 1 AND ENTER TO SELECT A PROVIDER' if at least one provider appears on the roster, otherwise, if the roster is empty, display 'TO ADD A PROVIDER PRESS CTRL-A.

Display "{number of providers displayed} OUT OF {total number of providers} PROVIDERS SHOWN - SCROLL TO SEE MORE" in red text only if there are more than the 13 providers, otherwise, use null display.

Note: The display for the CTRL-A, CTRL-E, CTRL-D instructions does not follow the UI rules for display. It will display as follows: CTRL-D will display on the same line as the second interviewer instruction. There will not be a line separating the two interviewer instructions. This is for maximum use of space for the form pane.

{{ number of providers displayed } out of { total number of providers } providers shown - scroll for more}

Responses: CONTINUE 1
 EMPTY Empty

**Programmer
Instructions:**

Preloaded Grid Type 2 including PV30 - Flexible navigation, allow empty.

If PV30LU is EMPTY for all of the medical providers and interviewer tries to move off of this page, display the following message: 'YOU MUST SELECT A MEDICAL PROVIDER BEFORE CONTINUING. PRESS ENTER TO RETURN TO PV30LU.'

If provider selected (PV30LU='1' for one provider) and it is a person-provider, immediately return to the Access to Care section.

If provider selected (PV30LU='1' for one provider) and it is a facility-provider (either facility provider was selected from NPI or from the roster or PV40 is coded= '2' (FACILITY PROVIDER)), immediately go to PV70.

Flag the providers selected to the RU level provider roster that displays at PV20LU and PV30LU.

Hard Check:

1. If CTRL-E is pressed for a provider that is linked to a NPI ID or the provider was added during a previous round, display the following error message: "THIS PROVIDER CAN'T BE EDITED BECAUSE IT WAS ADDED DURING A PREVIOUS ROUND OR IT IS LINKED TO A NPI ID."
2. If CTRL-D is pressed for a provider that was not added at the current question, display the following error message: " THIS PROVIDER CAN'T BE DELETED. ONLY PROVIDERS ADDED AT THE CURRENT QUESTION CAN BE DELETED."

Roster Behavior:

1. Display roster entries in the following order:
 - Display by provider last name or facility name. Entries that are added during the current round will appear at the bottom of the list of entries until the next round.

Grid Behavior:

1. The 'TYPE OF PROVIDER', 'PROVIDER', 'ADDRESS', 'CITY', 'STATE', 'ZIP CODE', 'PHONE NUMBER', and 'EDITABLE' are protected columns. No changes are allowed.
2. In the 'PV30' column, only one provider can be selected by pressing 1 and enter in the active field for that provider.
3. In the 'PV30' column a provider that is not linked to an NPI ID and was added during the current round, can be edited by navigating to that providers active field and pressing CTRL-E.
4. In the 'PV30' column a provider that was added at the current question, can be deleted by navigating to that providers active field and pressing CTRL-D.
5. The provider roster entries are displayed in the form pane. To maximize the number of rows that we can display in the form pane without vertical scrolling, reduce the size of the info pane to fit the question text displayed. At a minimum, at least 10 rows should be displayed in the form pane but 15 rows would be ideal.

When CTRL-A is selected the provider directory should pop-up.

The following fields should be displayed in the look-up: Name1, Name 2, Address, City, Phone number, Taxonomy.

There should be an option on the look-up for 'PROVIDER NOT FOUND'. When 'PROVIDER NOT FOUND' is selected, go to BOX_30 to start the collection of provider information using PV50_01-PV50_08 or PV60_01-PV60_07. After the

completion of these questions, the provider will be added to the medical provider roster and the interview should route back to PV30LU. At PV30LU the provider that as just added from PV50_01-PV50_08 or PV60_01-PV60_07 should appear at the bottom of the grid with a '1' prefilled in the PV30 field. Interviewers must press

Enter to confirm their selection.

The following search rules should appear at the bottom of the pop-up:

“SEARCH RULES:

- Fewer words often work better than lot of words – but you must type at least 5 letters
- Unusual or unique aspects of provider name or address finds better matches
- Common identifiers (e.g., medical center, office, associates, group, health) can increase the number of ‘extra’ matches displayed
- If searching by address – include street number and name, but not office, suite, or room number
- If searching by phone number – do not include hyphens
- Review the **DETAILS** line at the top to verify correct selection

After the FI picks a provider and presses ‘SELECT’, the provider will appear at the bottom of the grid with a ‘1’ prefilled in the PV30 field for this provider. FI’s must press ENTER to confirm their selection.

When CTRL-E is selected for a facility-provider that is not linked to a NPI ID and that was added during the current round , go to PV60_01. PV50_01-PV50_08 will be used to update the provider's information. After PV50_08, update the provider roster entry and return to PV30LU.

When CTRL-E is selected for a person-provider that is not linked to a NPI ID and that was added during the current round, go to PV50_01. PV50_01-PV50_08 will be used to update the provider's information. After PV50_08, update the provider roster entry and return to PV30LU.

When CTRL-D is selected for a provider that was added at the current question, a verification screen will appear to confirm that the interviewer wants to delete this provider.

**Display
Instructions:**

Roster 3 – Add, Edit, Delete Allowed

Prefill the provider's telephone number in the info pane if an existing medical provider entry is being edited/updated.

**Programmer
Instructions:**

If the provider roster section was launched from the EV section, return to the EV section.

If the provider roster section was launched from the AC section, return to the AC section.

Hard Check:

1. If CTRL-E is pressed for a doctor/department that was not added at the current question, display the following error message: " THIS DOCTOR/DEPARTMENT CAN'T BE EDITED. ONLY DOCTORS/DEPARTMENTS ADDED AT THE CURRENT QUESTION CAN BE EDITED."
2. If CTRL-D is pressed for a doctor/department that was not added at the current question, display the following error message: " THIS DOCTOR/DEPARTMENT CAN'T BE DELETED. ONLY DOCTORS/DEPARTMENTS ADDED AT THE CURRENT QUESTION CAN BE DELETED."

Roster 3 behavior:

1. Single select allowed.
2. Add allowed.
3. Delete is allowed for roster entries added at the current question.
4. Edit is allowed for roster entries added at the current question.

**Display
Instructions:**

Roster 1 – Report

Roster Definition:

Display the doctors and departments linked to this facility provider pair. For 'PROVIDER DOCTOR OR DEPT' display the doctors first and last name or the department name (Note that doctors name and department name are stored in the same variable).

Roster filter:

None. Display all doctors and departments

Roster 3 – add/edit/delete allowed

Roster Definition:

Display the doctors and departments linked to this facility provider pair. For 'PROVIDER DOCTOR OR DEPT' display the doctors first and last name or the department name.

Roster filter:

None. Display all doctors and departments

Display 'If there is a particular medical doctor or health care professional that {you/{PERSON}} {see/sees} at {PROVIDER}, I can enter that name now.' if the provider roster section was launched from the access to care section.

Otherwise, display 'If it will help you remember the details, I can enter the name of the particular medical doctor or health care provider {you/{PERSON}} saw or talked to, or the particular department {you/{PERSON}} visited'.

Display 'PREVIOUSLY, WE HAVE...WITH {PROVIDER}' if the provider roster section was not launched from the access to care section and there is at least one doctor/department entry on the roster. Otherwise, use a null display.

Display the interviewer instruction, 'DO NOT SELECT OR ADD A DEPARTMENT AS A USUAL SOURCE OF CARE PROVIDER' only if the provider roster section was launched from the Access to Care section, otherwise use a null display

When CTRL-A selected, display the following customized question wording in the pop-up:

"Please give me the name of the {doctor or department/provider}.

VERIFY SPELLING"

Display "doctor or department" if the provider roster section was launched from the event roster section. Display "provider" if the provider section was launched from the access to care section.

Display "USUAL SOURCE OF CARE" if PV30LU was asked (PV section was launched from Access to Care). Otherwise, display "VISIT".
